Final programme

Information about the session chairs will be added in due course. If you notice any mistake on the details of your presentation, please contact us through support@easyconferences.eu

All times in this document are in CEST, GMT+2

For conversion, please check the Overview program, or visit this website
Tuesday, 23 Aug

9:00 - 12:00  Morning Workshops

Workshop  Challenges of teaching health psychology at Medical Universities.
Interactive approach with scenarios
  9:00  Challenges of teaching health psychology at Medical Universities. Interactive approach with scenarios.
        Elżbieta Wesolowska

Workshop  Preregistration for fun, profit, and exploration – part A
  9:00  Preregistration for fun, profit, and exploration
        Chris Noone, Gjalt-Jorn Peters

9:00 - 16:00  Full-day Workshop

Workshop  Interpretative phenomenological analysis- a skill-based introductory workshop and update
  9:00  Interpretative phenomenological analysis- a skill-based introductory workshop and update
        Paul Flowers

13:00 - 16:00  Afternoon Workshops

Workshop  Using the Person-Based Approach to develop successful health behaviour change interventions
  13:00  Using the Person-Based Approach to develop successful health behaviour change interventions
        Katherine Bradbury, Kate Morton, Laura Dennsion

Workshop  Preregr for fun, profit, and adventure
  13:00  Preregr for fun, profit, and adventure
        Gjalt-Jorn Peters, Chris Noone

18:00 - 19:30  Opening Ceremony

19:30 - 21:30  Welcome Reception
Wednesday, 24 Aug

8:30 - 9:30  EHPS Meeting (Forum)

9:30 - 11:00  Parallel Sessions

Oral Session  Predicting COVID-19 Protective Behaviours

9:30  Predicting health behaviors during the COVID-19 pandemic: A longitudinal study from April to July 2021  
Olivier Luminet

9:45  Protection Motivation Theory as a framework for understanding adherence to preventive behaviours during COVID-19  
Gabriel Nudelman

10:00  Applying an integrated social cognition model to explain Covid-19 protection behaviours  
Paul Norman

10:15  Does autonomous motivation matter in COVID-19 prevention? Predicting personal protective behavior with motivation quality  
Meri Pietilä

10:30  Identifying Key Belief-Based Targets for Promoting Uptake of COVID-19 Vaccinations in Australia  
Jacob Keech

10:45  Habit formation of physical distancing and hand washing during the COVID-19 pandemic in the Netherlands  
Marieke Adriaanse

Oral Session  Adolescent health

9:30  A participatory developed school-based intervention promoting healthy sleep in adolescents – a process evaluation  
Janneke de Boer

9:45  How various forms of editing may affect adolescents’ perception of health message credibility  
Katarina Greskovicova

10:00  Understanding adolescent sleep health from a systems science perspective using a causal loop diagram  
Danique Heemskerk

10:15  Short videos to interrupt university students’ sedentary behavior during online-lectures – a pilot study  
Sebastian Heller

Online 10:30  Identifying barriers and facilitators to physical activity in female adolescents in Germany: A photo-voice study  
Heide Busse

10:45  Harnessing adolescents’ values for food choices: Co-creating food determinants maps  
Sara Correia Simão

Roundtable  Potential of new social approaches to study and influence health behaviors  
Chair: Jutta Mata and Dolores Albarracin

9:30  Potential of new social approaches to study and influence health behaviors  
Jutta Mata, Dolores Albarracin, Urte Scholz, Rebecca Band, Annie (Haesung) Jung

Symposium  Women’s health in a cultural context: Identifying risks and opportunities for change  
Chair: Efrat Neter
9:30 Pregnant women’s pandemic-related stress, fear of childbirth, and postpartum post-traumatic stress symptoms
Yael Benyamini

9:45 The role of maternal depression symptoms and maternal-foetal attachment in predicting exclusive breastfeeding
Adriana Baban

10:00 Decision Coaching-Navigation Intervention for Cancer Genetic Risk Assessment: Large Effect Size but Room to Grow
Anita Y. Kinney

10:15 Stresses of COVID-19 and future expectations among women: A cross-cultural analysis using the femininity-masculinity dimension
Efrat Neter

10:30 Participatory Action Research: Addressing Inequalities in Cervical Cancer Screening in Bulgaria
Irina Todorova

10:45 Discussion
Karen Morgan

---

**Symposium** Impact of smartphone use on health-related outcomes: Do we need to worry about it?
Chair: Jan Keller

9:30 Activity promotion vs increase in screen time in children – balancing intended and non-intended effects
Jenny Frense

9:45 Constantly connected, constantly ignored. Systematic review and meta-analysis examining the associations between phubbing and well-being
Tania Nunez

10:00 Digital Detox as Response to Information Overload? The Role of Smartphone Literacy and Nomophobia
Desiree Schmuck

10:15 Take a break?! Effectiveness of digital detox on health-related outcomes – A systematic literature review
Theda Radtke

10:30 A mobile intervention for self-efficacious and goal-directed smartphone use: Randomized controlled trial
Jan Keller

10:45 Discussion
Felix Naughton

---

**Oral Session** Health behaviour in older adulthood

9:30 The acceptability of homebased exercise- and Tai-chi snacking in UK and Taiwanese older adults
Ian Ju Liang

9:45 Older adults’ barriers and facilitators when formulating implementation intentions for physical activity- A qualitative study
Valérie Bösch

10:00 A qualitative study exploring music as a behaviour for managing older adult wellbeing during COVID19
Jenny Groarke

10:15 A cognitively enriched walking program for older adults to boost cognitive functioning: a pilot study
Pauline Hotterbeex

10:30 “With a little help I manage”: helpful support for residents with chronic-pain in long-term care
Marta Matos

10:45 Integration of illness into caregivers’ identity: Associations with burden, wellbeing, and attachment
Karin Mashevich

---

**Oral Session** Stress, affect and well-being

9:30 Different Associations of Post-Traumatic Growth and Well-Being among the Dutch General Population during COVID-19 Pandemic
Denise Blom
9:45  How does expecting positive events relate to event-related enjoyment, appraisals, and daily affect?  
       Patrick Klaiber

10:00  Do loneliness and depression mutually influence each other over time?  
       Hannes Mayerl

10:15  Substance use among middle school students: How does it relate to psychological and social well-being?  
       Réka Dudok

Symposium  Advancing habit research for health  
Chair: Sally Di Maio

9:30  The impact of individual differences on habit formation following a flossing intervention  
       Gaby Judah

9:45  Which factors drive the formation of a higher-order nutrition habit? An intensive longitudinal diary study  
       Sarah Labudek

10:00  Transmission effects in habit formation after planning to form two new handwashing habits  
       Sally Di Maio

10:15  Predictors of initiation and maintenance for a simple vs a complex health behaviour  
       L. Alison Phillips

10:30  Advancing habit research for health  
       Barbara Mullan

10:45  Discussion  
       Phillippa Lally

11:00 - 11:30  Coffee Break

11:30 - 13:00  Parallel Sessions

SOTA + Oral  Climate change and sustainable diet  
Session

11:30  Health Psychology and climate change: Time to address humanity’s most existential crisis  
       Esther K. Papies

Online 12:15  Deliberate Ignorance—A Barrier for Information Interventions Targeting Reduced Meat Consumption?  
       Philipp Kadel

12:30  How experts perceive healthy and sustainable dietary behaviour: A qualitative study among an interdisciplinary panel  
       Anouk Mesch

Symposium  Conducting behavior change intervention studies for infection prevention during an ongoing pandemic: Why and how  
Chair: Jennifer Inauen

11:30  An accessibility nudge, but not risk-related information increases COVID vaccination-related behaviors in the unvaccinated  
       Helge Giese

11:45  A just-in-time but still planned intervention to promote COVID-19-vaccination in university students: Lessons learned  
       Tugce Varol

Online 12:00  Multiphase optimization strategy to promote hand hygiene during a pandemic: Optimization of the Soapp app  
       Jennifer Inauen

12:15  Pandemic trajectory and hand hygiene interventions: results from the secondary analysis of the Soapp trial  
       Dario Baretta
12:30  Daily diary-assessed hand washing during a 100-days hand washing challenge: Insights from the ERNA intervention  
*Noemi Lorbeer*

12:45  Discussion  
*Susan Michie*

**Roundtable**  
**Exploring healthcare practitioners’ perspective: How to best apply health psychology evidence in practice?**  
Chair: *Dominika Kwasnicka*

11:30  Exploring healthcare practitioners’ perspective: How to best apply health psychology evidence in practice?  
*Dominika Kwasnicka, Sebastian Potthoff, Keegan Knittle*

**Oral Session**  
**Tobacco use interventions**

11:30  The Effect of Self-Affirmation on Responses to Cigarette Warning Labels Among Daily Smokers in Turkey  
*Meryem Kaynak Malatyalı*

11:45  Co-use of tobacco and cannabis: exploring the support provided by stop smoking practitioners  
*Dayyanah Sumodhee*

Online 12:00  VR exposure to anti-tobacco posters: impact on memorization of messages, smoking attitudes and craving?  
*Solenne Bonneterre*

Online 12:15  Systematic review and meta-analysis of volitional help sheet interventions for health behaviour change  
*Ross Stewart*

**Symposium**  
**Making brief interventions work: multi-stakeholder perspectives on implementation and effective components of health behaviour conversations**  
Chair: *Oonagh Meade and Chris Keyworth*

11:30  Iterative development of a training program in Motivational Communication  
*Anda I. Dragomir*

Online 11:45  Promoting healthy behaviours in adults in primary care: a systematic review and meta-analysis  
*Sophie Sun*

12:00  Experiences of embedding brief interventions in an integrated care system  
*Jo Hart*

12:15  Barriers and enablers to implementing Making Every Contact Count brief behavioural interventions—a survey study  
*Oonagh Meade*

12:30  Patient perspectives and experiences of brief behavioural interventions  
*Chris Keyworth*

12:45  Discussion  
*Molly Byrne*

**Symposium**  
**Consumption of sugar-sweetened beverages and water: Discussing health implications of drink choice and potential interventions**  
Chair: *Amy Rodger*

11:30  From the fundamentals to the importance of hydration for health in the general population  
*Tiphaine Vanhaecke*

Online 11:45  Cravings for non-alcoholic drinks including sugar-sweetened beverages  
*Joshua McGreen*

12:00  Increasing motivation for bottled water through advertisements  
*Maria Almudena Claassen*
Online 12:15 Reducing sugar-sweetened beverage consumption in children: a cluster randomized control trial in schools (Belgium)
Katia Castetbon

12:30 Can a simple plan change a complex behaviour? Implementation intentions and water drinking
Amy Rodger

12:45 Discussion
Eva Kemps

Symposium Utility and applications of Bayesian methods in health psychology: theory building and evidence evolution
Chair: Rens Van De Schoot

Online 11:30 Bayes factors in health psychology to interpret statistically non-significant findings: is the p-value enough?
Emma Beard

Online 11:45 Expert Elicitation, Prior-Data Conflicts, Bayes Factors for Replication Effects, and the Bayes Truth Serum
Rens Van De Schoot

12:00 Discussion
Sarah Depaoli

12:15 Application of Bayesian approach in mixed methods reviews in health psychology
Aliya Amirova

Online 12:30 Reporting standards for studies applying Bayesian statistics: WAMBS checklist
Sarah Depaoli

12:45 Discussion
Sarah Depaoli

Oral Session Sleep and self-enhancing behaviours

11:30 Individual differences in sense-of-purpose moderates link between sleep and next-day anticipation of positive events
Jin Wen

11:45 Effects of Childhood Trauma on Sleep Quality and Stress-related Variables in Adulthood: Two Multilevel Studies
Daryl O'Connor

12:00 Does social media use impact sleep quality? Moving beyond self-report methodology
Thomas McAlpine

12:15 Promoting children’s sleep health: Intervention Mapping meets Health in all Policies
Laura S. Belmon

Online 12:30 Does general and academic procrastination influence bedtime procrastination? The role of routines-related variables
André Oliveira

12:45 The effect of a body scan intervention on interoceptive processes and the HEP
Sandra Antonie Mai-Lippold

13:00 - 14:00 Lunch

13:00 - 14:00 BPS DHP Meeting

14:00 - 15:30 Parallel Sessions

Oral Session Implementation in Mental Health and Social Exclusion

14:00 Treating distress in long-term conditions: Outcomes for an Improving Access to Psychological Therapy service
Natasha Seaton
Co-location in community spaces increases access to public mental health services by neutralising psychological barriers
*Fiona Duncan*

Autonomy in co-located mental health services: impacts on staff and service users
*Emily Oliver*

Barriers of the care system for adolescents with emotional and behavioural problems: care providers’ perspectives
*Lucia Bosakova*

Mutual communication and relationship between health care providers and socially excluded Roma
*Daniela Filakovska Bobakova*

**Roundtable**
**Mechanisms of action of behaviour change interventions: Challenges in definitions and measurement**
Chair: *Marie Johnston*

Mechanisms of action of behaviour change interventions: Challenges in definitions and measurement
*Talea Cornelius, Susan Michie, Diane Dixon, Marie Johnston*

**Oral Session**
**Physical activity, sedentary behaviour and alcohol**

The Longitudinal Associations Between Wearable Technology, Physical Activity and Self-Determined Motivation
*Richard Steel*

New-onset alcohol use disorder after bariatric surgery: an interpretative phenomenological analysis
*Esin ER*

Identifying conducive contexts and mechanisms of sedentary behavior interventions in older adults: a realist review
*Laura Van de Velde*

**Online**
Within-person predictors of moderate-to-vigorous physical activity: Systematic review of Ecological Momentary Assessment studies
*Verena Schneider*

The relation between physical activity and executive functions in childhood: an inter- and intraindividual approach
*Anne Eppinger Ruiz de Zarate*

Appearance-schema, trait physical anxiety and contextual online exposure increase body dissatisfaction and body anxiety
*Mihaela Boza*

**Symposium**
**Considerations for Development and Evaluation of Digital Health Projects**
Chair: *Ann DeSmet*

The importance of contextual factors in smoking relapse: Ecological momentary assessment
*Mathis Elling*

Acceptability and usability of low-cost activity trackers among adults of lower socio-economic status
*Ann DeSmet*

Determinants of patients’ (decision to use) online access to general practice medical records
*Rosa Thiellmann*

Making sense of the impact of sexual health website Sense.info: results from a think-aloud study
*Gido Metz*

Wrapped digital IRCT: Working with young people to develop a recruitment and retention strategy
*Katie Newby*

Discussion
*Rosa Thiellmann*
Symposium: Research on cancer screening participation: from a specific approach to an integrated model
Chair: Ronan O'Carroll

14:00 Exploring reasons for non-participation in colorectal cancer screening: a systematic review of qualitative studies
Alice Le Bonniec

Online 14:15 A decision aid on mammography screening: Do knowledge and attitude mediate the effect on intention?
Maren Reder

Online 14:30 Exploring the implementation of text message reminders for cervical screening in Ireland
Jenny Mc Sharry

14:45 Using the Integrated Screening Action Model (I-SAM) to guide intervention development in cancer screening programmes
Katie Robb

15:00 Including people of all abilities in screening research
Marie Kotzur, Astryd Jamieson

15:15 Discussion
Ronan O'Carroll

Oral Session: Health psychology methods: systems approaches, machine-learning, attrition, and intervention fidelity

14:00 Applying systems methodologies in designing health interventions in complex systems
Maartje van Stralen

14:15 Applying machine-learning to rapidly analyse large qualitative text datasets: Comparing human and machine-assisted analysis techniques
Ben Ainsworth

Online 14:30 Assessing fidelity of receipt of a gait rehabilitation behaviour change intervention
Mandeep Sekhon

Online 14:45 Resilience and Coping in Oncology Nurses During the COVID-19 Pandemic; An Interpretative Phenomenological Analysis
Courtney Atkins

Online 15:00 Ethical dilemmas and well-being in teachers’ work: A three-way, two-year longitudinal study
Mikko Heikkilä

Online 15:15 Longitudinal changes in personal resources during the first COVID-19 lockdown: A moderation role of anxiety
Zuzanna Kwisa-Gajewska

Oral Session: Family Health and Wellbeing

14:00 Resilience in Military Families
Alia Skomorovsky

14:15 A discursive examination of how pregnant women navigate and manage their position on physical activity
Rebecca Livingston

14:30 Development of mothers’ health literacy: Findings from the KUNO-Kids study
Maja Pawellek

14:45 The interplay between self-efficacy and self-regulation indicators of child food intake among parent-child dyads
Anna Banik

15:00 The development of evidence-based guidance for parents on talking to children about weight
Fiona Gillison

15:15 Psychomotor development in early childhood: marginalized Roma children score worse in all domains
Stanislava Kováčová

15:30 - 17:00 Poster Sessions
P01 Physical Activity and Sedentary Behaviour

Self-efficacy, sedentary behaviour, and sedentary habits: A longitudinal general population study
Dominika Wietrzykowska

Sedentary behavior and physical activity in the context of daily activities, contexts, and environments
Pam ten Broeke

Sitting is not a meaningful behaviour: Goal prioritisation and sitting
Benjamin Gardner

Insights into mechanisms of planning interventions: the effects on self-reported habit and collaborative social control
Ewa Kulis

Designing for active office work
Ida Damen

P02 Motives, adherence and psychosocial influences on behaviour

What if it doesn’t go as planned? Adherence to physical rehabilitation following knee surgery
Shu M. Yu

Psychosocial factors influencing adherence to statins after acute coronary events. A multicenter follow-up study
István Tiringer

An integrated theory of planned behaviour model to understand cancer screening attendance
Marcella Bianchi

Vaccination intentions against COVID-19: Findings from three representative samples of the Portuguese population
Cristina Albuquerque Godinho

Transmission of vaccination attitudes and uptake based on Social Contagion Theory: A scoping review
Maria Karekla

How does context affect psychological predictors of alcohol consumption?
Richard Cooke

How is daily social control related to physical activity and affect in romantic partners?
Pascal Küng

Are we (m)eating like our friends? How social friendship networks influence meat consumption
Ira Elisa Herwig

The importance of psychosocial factors on health behaviour in pregnancy and postpartum: A systematic review
Erika Varnagirytė

A computational model of health behaviour choice in couples
James Allen

Condom use across different casual and committed relationships: The role of relationship characteristics
Cristina Albuquerque Godinho

P03 Health Behaviour

Socio-cognitive and emotional determinants of edible insect consumption in the Kongo Central province (D.R. Congo)
Emmanuel Mopendo Mwisomi

Interdependencies between food decisions: a multi-dimensional conceptual framework
Suzanne Op ’t Landt

Young Men in Chile: Porn consumption’s impact on Sexual Risk Behaviors
Margarita Bernales

Re-examining the associations between sleep hygiene behaviours and sleep: An exploratory investigation
Thomas McAlpine
Effective behavioral theories in interventions promoting condom use among heterosexual youth: a systematic review
Alcira de Vries

P04 Developing health behaviour change interventions

Developing an intervention to enhance medication adherence and minimise clinical inertia in hypertension: MIAMI study
Gerry Molloy

Individual pathways of changing interaction habits: Qualitative process evaluation of a training intervention
Elina Renko

Adapted Personal Project Analysis to measure inter-goal relations on physical activity and diet
Sara Kassas

Developing a digital intervention (iPREPWELL) using the behaviour change wheel to prepare patients for surgery
Rebecca Livingston

AIMS-AET: Promising adherence intervention for endocrine therapy after breast cancer – a randomized pilot design
Anna Janssen

Creation and evaluation of adolescent food choice prevention intervention based on a supermarket simulation
Florian Lecêtre

P05 Health behaviour change interventions

Encouraging tooth-kind behaviours in children: evaluation of e-training for dental practitioners
Joanna Goldthorpe

Psychologically informed oral health interventions in pregnancy and type 2 diabetes: a scoping review
Camilla Kristensen

Why do people struggle to be self-compassionate to health goal lapses? A social cognitive perspective
Fuschia Sirois

Preliminary evidence for a combined intervention using implementation intentions and imagery for physical activity habits
Alison Divine

A systematic review of multiple health behaviour change interventions in healthcare
Carolina C. Silva

Effects of smoking cessation school – results
Latinka Basara

P06 Psychosocial approaches to health behavior

Children’s and young peoples’ beliefs about chronic musculoskeletal pain: a scoping review
Danielle Mountain

The relationship between self-efficacy and sedentary behaviors in people with overweight and obesity
Hanna Zaleskiwicz

Sleep routines and bedtime procrastination in the times of COVID-19 lockdown
André Oliveira

Development of the Inclusion of Illness in the Self Scale: Theoretical foundations and initial validation
Hodaya Wolf

Overcoming obstacles in achieving health-related goals
Monika Hricová

Roles of predictors and moderators in engagement in healthy lifestyle behaviours in BRCA1/2 alteration carriers
Nikolett Warner

P07 Contemporary Topics in Self-Regulation
Online  The role of Self-Evaluation and Perceived Social Support in Adult’s Problematic Smartphone Use  
Sándor Csibi

Social identification and binge drinking practices: The impact of student vs. future professional identities  
Catherine Grenier

**P08 Informal caretakers**

Why don’t informal caregivers use respite care services? A cluster-based study in Belgium  
Pierre Gérain

Online  Looking after the informal cancer caregiver’s quality of life  
Carolina Blom

The experiences of caregivers of children with respiratory illnesses during the COVID-19 pandemic  
Michaile G. Anthony

Willingness to care and dyadic coping among different informal caregivers: a weekly diary study  
Giulia Ferraris

**P09 Social support in health behavior change**

Weight Loss Surgery Saboteurs: A Qualitative Exploration of Online Weight Loss Surgery Support Forums  
Sophia Quirke-McFarlane

Relationship satisfaction, perceived social control, and a reduction of sedentary behavior: a longitudinal dyadic study  
Maria Siwa

The role of companionship for physical activity: A dyadic longitudinal analysis  
Patrick Stefan Höhener

The use of virtual reality in training professionals to understand ADHD and develop their competences  
Annamária Antalová

Social support to diminish gender-based barriers to health behaviour: Testing the enabling hypothesis in Nepal  
Vica Tomberge

Two of hearts: Relationship quality appraisals and cardiac patients’ and spouses’ functional health  
Heather Tulloch

**P10 Non-COVID vaccination uptake**

An umbrella review of interventions that aim to improve HPV vaccine uptake  
Susan M Sherman

Psychological antecedents of HPV vaccine intention among French adolescents and their parents  
Damien Oudin Doglioni

Exploring parents’ willingness and preferences for the introduction of routine varicella vaccination in the UK  
Susan M Sherman

How improve acceptability of vaccination against HPV? Focus groups with parents and school staff  
Aurélie Gauchet

Online  Italian Adaptation of the Vaccination Attitudes Examination (VAX) Scale: A Reliability and Validity Study  
Renato Pisanti

**P11 Mental health and emotion**

Online  Trajectory of mental health during COVID-19 pandemic in Spain: risk and protective factors  
Paula Collazo-Castiñeira

17:00 - 18:00  Keynote Lecture: Falko Sniehotta
18:00 - 19:00  National Delegates Meeting
19:00 - 21:00  Celebrating EHPS Active Engagement
Thursday, 25 Aug

8:15 - 9:30  EHPS AGM

9:30 - 11:00  Parallel Sessions

Symposium  Health Inequalities – why do they matter and how can we tackle them?
Chair: Wendy Stainton Rogers

9:30  Title: “Why do poor people behave so poorly?”: Shifting the blame to class-based injustice
Bridgette Rickett

9:45  Box for the tallest man? Researching the effect of behaviour change interventions on health inequalities
Joanna Goldthorpe

Online 10:00  Mapping pathways to better healthcare for Brighton’s homeless population – the value of co-production
Emma Anderson

10:15  The case of orphan diseases in Chile: Health decisions in contexts of precarity and inequality
Nicolás Schöngut-Grollmus

10:30  The role of cultural representation in presenting health information to underserved communities
Tushna Vandrevala

10:45  Discussion
Wendy Stainton Rogers

Symposium  Specifying all dimensions of behaviour change interventions: The Behaviour Change Intervention Ontology
Chair: Alison Wright

9:30  Overview of the Behaviour Change Intervention Ontology
Susan Michie

9:45  Specifying the potentially active content of interventions: the Behaviour Change Technique Ontology
Marie Johnston

10:00  Specifying theoretical processes of change: the Mechanisms of Action Ontology
Alison Wright

10:15  Specifying the behaviours targeted by interventions: development of the Human Behaviour Ontology
Robert West

Online 10:30  Development of BCIOVocab and BCIOVisual, online tools enabling researchers to browse and visualise

Roundtable  Personalized context-aware digital health interventions: crossing boundaries between data science, geoscience and health psychology
Chair: Monique Simons

9:30  Personalized context-aware digital health interventions: crossing boundaries between data science, geoscience and health psychology
Monique Simons, Susan Murphy, Felix Naughton, Laura König, Arend Ligtenberg

Oral Session  Impact of Covid
9:30 Exposure to images showing (non)adherence to physical distance rules: Effect on adherence and perceived norms
Sanne Raghoebar

9:45 A longitudinal study on personality determinants of post-traumatic growth during the COVID-19 pandemic
Serena Petrocchi

10:00 Depression, stigma, and emotional support during COVID-19 pandemic among people with HIV/AIDS: no protective effects?
Ewa Gruszczynska

10:15 Interpersonal emotion regulation is associated with mental health during the Covid-19 pandemic across four countries
Olenka Dworakowski

Online 10:30 Social interactions and health during the COVID-19 pandemic. The mediating role of perceived social support
Alexandra Zancu

Oral Session Implementation in Practice: Frameworks and Perspectives

9:30 A realist evaluation of the sustainable implementation of the Healthy School Canteen program
Roos van Wijngaarden

9:45 Applying Health Psychology to Advance the Science of De-implementation
Andrea Patey

10:00 Exploring Antimicrobial Stewardship education and training interventions in the UK: an interview study
Lucie Byrne-Davis

10:15 Facing organ donation request in emerging donation procedures: the experience of bereaved relatives
Maria Soria-Oliver

10:30 Healthcare professional practices when requesting family consent for emergent organ donation procedures: a qualitative study
Jorge S. López Martínez

10:45 Temporal changes in attitudes towards adopting new biomedical HIV-prevention strategies: An Attitude Network Analysis
Hanne Zimmermann

Oral Session Vaccination, Covid 19 and quarantine

9:30 Predictors for Human Papillomavirus Vaccination Intent in European Parents: A Systematic Review and Meta-Analysis
Nicoleta Monica Jiboc

9:45 How to facilitate quarantine adherence and psychosocial wellbeing: different approaches for different kinds of quarantine?
Antje Bühler

10:00 Healthcare workers’ acceptability of influenza vaccination nudges: Evaluation of a real-world intervention
Rachelle de Vries

10:15 Vaccine Public Health messaging: three studies targeting the role of autonomy, source and content
Vera Araujo-Soares

10:30 Determinants of vaccine willingness among the general population: a systematic review
Kristin Kornnyu

10:45 Rates and determinants of parental COVID 19 vaccine hesitancy for children in Singapore
Konstadina Griva

Oral Session Age Related Challenges to Quality of Life

Online 9:30 Dementia may diminish interdependence in quality of life and carer burden among married couples
Samuel Nyman

9:45 Socio-economic inequalities and trajectories of a new biopsychosocial metric of Active and Healthy Ageing (AHA)
Olivia Malkowski
10:00 Self-management by older people living with cancer and multi-morbidity: a qualitative study
   Teresa Corbett

10:15 Psychosocial adaptive capacity and survival in very old persons
   Jasminka Despot Lučanin

10:30 Exploring older farmers’ perspectives on machine-related accidents and factors influencing behaviour change - A focus group study
   Aswathi Surendran

Online 10:45 Development and evaluation of a co-production course for caregiver interventions for people living with dementia
   Gulcan Garip

**Oral Session** Health care professionals

9:30 How and why was a digital diabetes self-management intervention changed during national roll-out?
   Mixed-methods study
   David P French

9:45 Fidelity of behaviour change technique delivery in a nationally implemented digital diabetes prevention programme
   Rhiannon Hawkes

10:00 Receipt and enactment of behaviour change technique content of a nationally-implemented digital diabetes prevention programme
   Lisa Miles

10:15 Comparing face-to-face and digital delivery of the English NHS diabetes prevention programme: a non-inferiority study
   Sarah Cotterill

10:30 Can we prepare UK Critical Care Nurses for, and aid recovery after, stressful events?
   Katharina Vogt

11:00 - 11:30 Coffee Break

11:30 - 13:00 Parallel Sessions

**SOTA + Oral** COVID-19 related research

Session

11:30 Psychology in policy and in practice: Advising government in the time of Covid19
   Susan Michie

Online 12:15 What are the key behavioural factors associated with COVID-19 vaccination acceptance among healthcare workers?
   Jacob Crawshaw

12:30 COVID-19 quarantine behavior and expected vs. experienced stigma
   Sarah Eitze

Online 12:45 Healthcare professionals’ barriers and enablers to delivering behaviour change interventions during COVID-19: a qualitative study
   Katharina Vogt

**Oral Session** Communicating about health and risks

11:30 Investigating children and young peoples’ experiences and perceptions of pain communication in paediatric rheumatology
   Rebecca Lee

11:45 Using signal detection theory to understand people’s antibiotic expectations
   Andriana Theodoropoulou

Online 12:00 How Do Young Women Interpret the Cervical Screening Leaflet in England? A Mixed Methods Approach
   Caroline Charlton

12:15 “I don’t know what I’m looking for”: A qualitative study examining young women’s breast awareness
   Sarah Hindmarch
12:30 Psychophysiological stress responses of doctors and patients during cancer consultations
Marta Vigier

12:45 Circulating tumour DNA monitoring and early treatment for relapse: views from patients with early-stage melanoma
Victoria Woof

**Roundtable** The EHPS in international health policy initiatives: current contributions and future opportunities
Chair: Vera Araujo Soares
11:30 The EHPS in international health policy initiatives: current contributions and future opportunities
Alexandra Dima, Jo Hart, Vera Araujo Soares, Lucie Byrne-Davis, Adriana Baban, Marie Johnston

**Symposium** Embedding Open Science within Health Psychology research, methods and tools
Chair: James Green and Gjalt-Jorn Peters
11:30 Establishing Open Science Research Priorities in Health Psychology: A research prioritisation Delphi exercise
Emma Norris
11:45 An open science approach to study misinformation sharing on social media
Christopher Martin Jones
12:00 OpenDrawer: A project to document unpublished research
James Green
12:15 After the End of Construct Validity: Thinking About and Studying How Psychological Measurement Instruments Work
Gjalt-Jorn Ygram Peters
12:30 Embedding Registered Reports within Health Psychology: Reflections as Author and Recommender of Peer Community In
Charlotte Pennington
12:45 Discussion
Charlotte Pennington

**Symposium** Doctor knows best? Qualitative perspectives on interactions and relationships with healthcare workers from four countries
Chair: Rachael Fox
11:30 Doctor-patient relationship in an Italian emergency department during the COVID-19 pandemic: an ethnographic study
Sabrina Cipolletta
Online 11:45 Family and domestic violence in remote Australian Emergency Departments: A critical analysis of institutional discourse
Sheree Moore
12:00 You can push them a little bit': Provider accounts of contraceptive care and long-acting contraception
Tracy Morison
Online 12:15 Receiving bad news: cancer family carers managing initial interactions with healthcare services
Gianina- Ioana Postavaru
12:30 Moving forward with online interventions and therapeutic relationship online, Italian professionals’ experiences from the pandemic
Silvia Caterina Maria Tomaino
12:45 Discussion
Tracy Morison

**Oral Session** eHealth intervention development & optimisation
11:30 Adaptation of cardiovascular disease prevention programmes for digital delivery during the COVID-19 pandemic
Lisa Hynes
11:45 Patient, staff and stakeholder experiences with the national NHS App in general practice: Qualitative evaluation
Claire Reidy

12:00 A digital health program in bariatric surgery: a mixed method process evaluation
Charlene Wright

12:15 Psychological need satisfaction through an online intervention for diabetic patients
Coline Hehn

12:30 Experiences and acceptability of an online theory-based intervention to prevent and reduce self-harm
Chris Keyworth

Oral Session  Adherence and Quality of Life in Chronic Disease

11:30 Impact, coping and development challenges among perinatally HIV-infected adolescents
Filipa Teixeira

11:45 Medication adherence in Behcet's disease during COVID-19: cross-sectional study
Emily Arden-Close

12:00 Identifying different profiles of people with a stoma and their relationship with quality of life
William Goodman

12:15 An exploration of quality of life and treatment decision-making in men with benign prostatic hyperplasia
Margaret Husted

12:30 Multidimensional relationships between medication beliefs and adherence to medications among older adults living with multimorbidity
Louise Foley

12:45 Designing an intervention for young people with asthma and testing acceptability and feasibility
Pamela Rackow

Oral Session  eHealth in cancer treatment & care

11:30 Preliminary Efficacy of ImmunOncoTool: An Immune Checkpoint Inhibitors Adverse Event Management and Reporting eHealth Program
Chloe Taub

11:45 A process evaluation of a digital intervention for improving quality of life in cancer survivors
Katherine Bradbury

12:00 Effect of a digital health intervention to support total-skin-self-examination on psychological well-being of melanoma survivors
Peter Murchie

Online 12:15 Telehealth interventions for people with cancer that cannot be cured: systematic review and meta-analysis
Laura Ashley

12:30 Integrating insights from behavioral science and design thinking to develop mHealth interventions: Systematic scoping review
Paula Voorheis

13:00 - 14:00 Lunch

13:00 - 14:00 Meeting: Special Interest Group (SIG)

14:00 - 15:30 Parallel Sessions

Oral Session  Understanding COVID-19 Vaccine Hesitancy

Online 14:00 Predicting COVID-19 vaccination intention among young adults using the theory of planned behavior
Celia Naivar Sen

14:15 Profiling hesitancy to COVID-19 vaccinations in six European countries: Behavioral, attitudinal and demographic determinants
Angelos Kassianos
Online 14:30 Psychosocial factors associated with COVID-19 vaccine hesitancy in Romania
Irina Crumpei-Tanasă

14:45 Conspiracy beliefs and motivation to get vaccinated against COVID-19 in Costa Rica
Benjamin Reyes Fernandez

Online 15:00 Conspiracy beliefs and COVID-19 vaccination intention: examining the mediating effects of trust and attitude
Miriam Capasso

Oral Session Health behavior change across the lifespan

Online 14:00 Using a co-design approach to promote awareness of preconception health in central Scotland
Hannah Welshman

14:15 Effects and acceptability of an online decision aid (DA) about maternal pertussis vaccination (MPV)
Charlotte Anraad

14:30 How does a school-based intervention impact students’ social cognitions on reducing sedentary behavior?
Matthias Aulbach

14:45 Dyadic behavior change techniques in health behavior change interventions with romantic couples: A systematic review
Karoline Villinger

Online 15:00 Utilizing narrative persuasion to improve risky sexual behaviors among men who have sex with men
Meiqi Xin

15:15 Self-efficacy and action control as predictors of physical activity among patients with knee osteoarthritis
Ralf Schwarzer

Roundtable Ontologies of behaviour – current perspectives and future potential in health psychology
Chair: Thomas Webb and Susan Michie

14:00 Ontologies of behaviour – current perspectives and future potential in health psychology
Thomas Webb, Susan Michie

Symposium The effectiveness of labelling interventions to improve population and planetary health
Chair: James Reynolds

14:00 Calorie labelling in the out-of-home food sector and socioeconomic position
Megan Polden

14:15 Effect of PACE labels on energy purchased in cafeterias: a stepped-wedge randomised controlled trial
James Reynolds

14:30 Impact of health warning labels and calorie information on selection and purchasing of alcohol
Natasha Clarke

Online 14:45 Effect of environmental labelling on food choices: A randomised controlled trial in a virtual supermarket
Lucile Marty

Online 15:00 The impact of ecolabels on the environmental impact of cafeteria purchases: A randomised controlled trial
Rachel Pechey

15:15 Discussion
James Reynolds

Symposium The role of interpersonal dynamics for health behavior and well-being using intensive longitudinal designs
Chair: Janina Lüscher and Corina Berli

Online 14:00 Reciprocal association between social support and psychological distress in chronic health conditions
Caroline Debnar
14:15  Interpersonal affective Dynamics in Daily Life as a core process of wellbeing over the lifespan
       Andrea B. Horn

14:30  Daily perceived buddy responsiveness in the context of smoking cessation
       Janina Lüscher

14:45  Resource Activation in Peer Dyads 65+: Impact on Social Connection and Well-being
       Zilla Marie Huber

15:00  Interpersonal processes of a dyadic smoking cessation app intervention in daily life
       Corina Berli

15:15  Discussion
       Jutta Mata

Oral Session  Temporal Aspects of Health Attitudes and Habits

Online 14:00  Predictors of Attitude Strength as Determinants of Attitude Stability and Attitude-Behaviour Relationships
            Mark Conner

14:15  Describing, predicting and explaining adherence to total skin self-examination (TSSE) in people with melanoma
       Julia Allan

14:30  Differential importance of intentional and non-intentional factors of behaviour across behavioural attributes and contexts
       Indita Dorina

14:45  “Look, a streaker!” – Examining streaking as a habit formation technique for recreational running behaviour
       Stephan Dombrowski

15:00  Comparing Computational Models of Habit Formation: A Study on Handwashing Behavior during COVID-19 with Sensors
       Chao Zhang

Oral Session  Quality of life

14:00  INTERVENING TO ENHANCE QUALITY OF LIFE DURING A PANDEMIC: A PILOT STUDY
       Tracy Epton

14:15  Individual Rituals Increase the Effects of Non-Deceptive Placebos on Wellbeing
       Marco Valerio

Online 14:30  Body appreciation in young adulthood: A new challenge in positive health psychology?
            Hedvig Kiss

14:45  Quality of Life of Pediatric and Adult Osteogenesis Imperfecta Patients: A Systematic Review and Meta-Analysis
       Susanne Wehrli

15:00  Caregivers’ perspectives on health-related quality of life for young children with tuberculosis and respiratory illnesses
       Michale G. Anthony

Online 15:15  Exploring perceptions of living with obesity and the prospect of having bariatric surgery
            Rebecca Keyte

Oral Session  eHealth for diet, physical activity, and smoking

Online 14:00  Evaluation of digital interventions for physical activity promotion: Scoping review of reviews
            Karina Karolina De Santis

14:15  Exploring the content of the STAND-VR intervention: a qualitative interview study
       David Healy

14:30  Towards more personalized digital health interventions: impact of emotions and physical complaints on action&coping plans
       Helene Schroé

14:45  Predicting lapses in smokers attempting to stop with a popular smartphone app using machine learning
       Olga Perski
15:00 Public self-monitoring of eating via social media – effects on eating and underlying mechanisms
Michael Kilb

Online 15:15 eHealth guidelines for people with low socioeconomic position: recommendations via Delphi methodology
Isra Al-Dhahir

15:30 - 17:00 Poster Sessions

**P01 Personality and health**

Online Specificity in the relationships between emotional intelligence and quality of life with ischemic heart disease
Irina Tarasova

Core Fear of Cancer Recurrence Symptoms in Cancer Survivors: A network approach
Ioana Podina

Online Psychological distress in individuals with Rosacea: the interplay between trait emotional intelligence and social phobia
Nadia Barberis

Cognitive impairment and mental health outcomes among treatment-naive women with breast cancer
Snaefridur Gudmundsdottir Aspelund

Eating Behaviours and Food-Related Emotional Regulation among Adults with Varying Levels of Depression and Anxiety
Justyna Modrzejewska

Trauma Type Clusters and mental health: examining the role of gender differences
Martha Schneider

Role of body mass index, perfectionism, and emotional regulation difficulties in eating disorders
Alessandra Pokrajac-Bulian

Key dimensions of interoceptive sensitivity in relation to alexithymia, emotion regulation, and depressive symptoms
Lorena Desdentado

The relationship of the heartbeat-evoked potential (HEP) to interoception and emotion in adolescents
Lorenz Rapp

Examining Health Anxiety from the Perspective of Self-Evaluation, Coherence and Social Support in Hungarian adults
Sándor Csibi

Developmental trajectories of depression and predictive associations with personality traits: A six-wave longitudinal study
Yusuke Takahashi

Cognitive reserve predicts false memory paradigm effect in Latvian adults
Kristine Sneidere

Sense of coherence and social support profiles: Associations with Demographic, wellbeing and Lifestyle Indicators
Francesca Brivio

**P02 Personality and health-compromising behavior**

Medical decision making beyond evidence: correlates of belief in complementary and alternative medicine and homeopathy
Leonie Aßmann

Online Reducing blurred boundaries: results of a systematic review of correlates of workaholism and work addiction
Modesta Morkevičiūtė

Online Narcissism, Fear of Missing Out and Social Capital as predictors of Social Media Usage
Corina Rugina
Smartphone and social media addiction: are college students with attention deficit hyperactivity disorder at risk?  
Vanessa Müller

Examining the social contagion of attitudes towards childhood vaccination in parental networks: Work in Progress  
Angelos Kassianos

P03 Coping with Cancer

Meaning-making process in cancer: the role of psychological flexibility  
Aleksandra Kroeke

Physical activity and well being among those living with and beyond cancer  
Phillippa Lally

Acceptance and Commitment Therapy processes and distress in cancer – a systematic review and meta-analysis  
Sophie Fawson

Profiles of mindfulness in cancer patients and associations with psychological outcomes and coping strategies  
Jun Wang

Self-efficacy and intention mediate the association between barriers and physical activity after a cancer diagnosis  
Johanna Depenbusch

Perceived Cognitive Impairment in Patients With Cancer in Croatia  
Ivona Poljak

The impact of COVID-19 on health behaviours of people living with and beyond cancer  
Phillippa Lally

P04 Living with long term conditions

Online Coping strategies predicting post-traumatic growth in Multiple Sclerosis patients and caregivers  
Irene Gil-González

Coping strategies of Slovak university students with and without special educational needs  
Karin Ćernickaja

Online Psychological distress, illness perceptions, coping and quality of life in women with Premature Ovarian Insufficiency  
Vassiliki Siafaka

Online Biopsychosocial predictors of mortality in patients with lymphedema: a longitudinal study  
Katharina Traußnig

Determinants of physical activity in cancer survivors: an EMA study

Nikolett Warner

An investigation into social cognition and executive function in Multiple Sclerosis (MS)  
Daniel Shaw

Subjective Cognitive Complaints in End-Stage Renal Disease: A Systematic Review  
Frederick Hui Fei Chan

P05 Subjective beliefs in chronic disease

Irritable bowel syndrome in inflammatory bowel disease: distinct, intertwined, unhelpful? Views and experiences of patients  
Danielle Huisman

Weight loss-related beliefs and behaviours among adults with psoriasis and obesity: a qualitative interview study  
Neil Pavlova

Online Help-seeking toward mental health professionals among patients with epilepsy  
Kento Takahashi
Current Evidence in Psychodermatology on the Stigmatizing Experience of Visible Skin Diseases: A Meta-analysis Review
Caroline F. Z. Stuhlmann

Combining the SIA to Health with the ICF – participation experiences of people with MS
Elise-Marie Dilger

**P06 Coping with COVID-19 stress and Fatigue**

Long-term fatigue due to COVID-19: the role of goal flexibility
Sarah Maes

A discriminant content validity study of fatigue assessment items in a transdiagnostic chronic medical population
Sarah Maes

Quality of Life and Medication Adherence Among People With Diabetes During the COVID-19 Pandemic
Evelyn Heckenberger-Nagy

Fatigue as symptom of long-COVID in relation to sleep quality and daily activities
Christina Bode

Men living alone during the COVID-19 pandemic report lower need satisfaction and wellbeing
Fanny Lalot

**P07 Novel Interventions in the context of illness**

Psychological impacts of an online genetic counselling narrative group intervention in people with hereditary ataxia
Maria Barbosa

HED-Start: A positive skills intervention to improve psychological adjustment in incident haemodialysis patients
Phoebe Lim

Hernia Active Living Trial: Feasibility study of an exercise intervention for people with parastomal bulging
William Goodman

Delivery of supported self-management in asthma reviews: an observational study nested in the IMP2ART programme
Emma Kinley

Optimising well-being and promoting wound healing in DFU: Psychological perspectives and patient informed intervention strategies
Michelle Hanlon

**P08 Biopsychology of stress and coping**

How do we regulate stress in daily life? An ambulatory heart rate variability study
Melanie Bamert

Cardiovascular reactivity during couple conflict: The influence of relationship quality and emotion regulation
Katharina Salo

Squeeze the beat: Enhancing cardiac vagal activity during resonance breathing via coherent pelvic floor recruitment
Josef Martin Tatsch

The coping heart: Vagal reactivity moderates the relation between cognitive reappraisal and advantageous decision-making
Valentin Magnon

Should we use the inverse movement to detect psychologically meaningful non-metabolic heart rate variability reductions
Andreas Schwerdtfeger

**P09 Stress and Coping in Pandemic Times**

Well-being in Children and Adolescents with Hearing Impairment During the COVID-19 Pandemic
Vera Gillé
Covid-19-vulnerable students are highly psychologically distressed  
Gabriele Helga Franke

COVID-19-related stress in students, examination of the CSSQ - a pilot study  
Melanie Jagla-Franke

Online

Online From parental victimization and internalized homophobia to LGBTQ+ resilience: mediating effect of outness and support
Mihaela Boza

Understanding how gay men construct ‘good’ chemsex participation through interpretative repertoires and discursive devices
Chris Noone

P14 Pregnancy, health behaviours and loss

Online Pregnant Smoking Women and Stigma Perpetrators
Deborah Loyal

Online Assessing Self-stigma in Pregnant Smoking Women
Deborah Loyal

Online Exploring first time mothers’ experiences and knowledge about modifiable risk factors for stillbirth
Tamara Escanuela Sanchez

P15 Sustainable and healthy diet

Experts’ perceptions on motivators and barriers of healthy and sustainable dietary behaviour among adolescents
Sanne Raghoebar

Socioeconomic position and the impact of increasing availability of lower energy meals on energy intake
Tess Langfield

How values relate to the consumption of red meat and plant-based alternatives for meat?
Hanna Konttinen

One’s meat another’s poison? Different social norm perceptions across meat consumers
Sofia Wolswinkel

What’s in a (Dish) Name? Greater use of Consumption Simulation Language for Diet-Congruent Foods
Tess Davis

Socioeconomic position and the effect of portion size reduction: a 1-day dietary behaviour experimental study
Katie Clarke

P16 Environmental health behavior

Positive and negative spill-over effects within and between health-promoting and pro-environmental behaviours
Ann DeSmet

Online Similarities in determinants of health and climate mitigation behaviour; repertory grid study with international experts
Nienke Beerlage-de Jong

Online Geographic, sociodemographic and psychological factors related to active and Sustainable mobility
Claudia Teran Escobar

ISCycle: Planning for an intervention to promote inclusive and sustainable ebike uptake and use
James Green
17:00 - 18:00  Keynote Lecture: Zuzana Dankulincová
   How to implement what we know from health psychology into practice?

20:00 - 23:00  Conference Dinner
Friday, 26 Aug

9:30 - 11:00  Parallel Sessions

Oral Session  Understanding Health Behaviour: Distinguishing Constructs

9:30  Determinants of recovery behaviours in Olympic swimmers: A qualitative investigation using the Reasoned Action Approach  
Mathilde Poignard

9:45  Sedentary behavior after cardiac rehabilitation: Explicit and implicit attitudinal components and ambivalence  
Tania Bermudez

Online 10:00  The role of autonomous motivation in predicting the adherence to the Mediterranean diet  
Luigina Canova

10:15  Contrasting constructs or continuum? Examining the dimensionality of body appreciation and body dissatisfaction  
Kimberly More

10:30  Rash impulsivity and sensitivity to reward predict soft drink consumption  
Max Kulbida

10:45  Same construct, different names?: The jangle fallacy in evaluative and feasibility judgments of physical activity  
Alexander Rothman

Symposium  Innovative research approaches to developing social support interventions for chronic illness and changing health behaviors  
Chair: Christine Rini

9:30  Patients’ individualized, changing written peer support needs throughout stem cell transplant: A longitudinal, mixed-methods study  
Christine Rini

9:45  Social support and hindrance for completing a behavioral pain intervention: Implications for intervention outcomes  
Alyssa Van Denburg

10:00  Intra-individual received support for leisure-time physical activity in workers: An ambulatory assessment, observational N-of-1 study  
Lea O. Wilhelm

10:15  Supporting the dyadic partner to make plans: Randomized control trial explaining physical activity in dyads  
Aleksandra Luszczynska

10:30  Discussion  
Tracey Revenson

10:45  Discussion  
Tracey Revenson

Oral Session  Cardiovascular and psychosocial antecedents and consequences of health

9:30  Systematic review of behaviour change and cardiovascular disease self-management interventions on cardiovascular stress reactivity  
Ainslea Cross
9:45  Vagal nerve activity moderates relationships between life events and cancer onset: Making things less vague
Laura Caton

10:00 Cardiac interoception in everyday life: The novel Graz ambulatory interoception task (GRAIT)
Christian Rominger

10:15 Predictors of resilience of university students to stressors during the Covid-19 pandemic: a longitudinal study
Jennifer L. Reichel

Oral Session Food and diet

Online 9:30 Descriptive versus evaluative nutrition labelling on food choices from an online supermarket
Eva Kemps

9:45 The use of item placement techniques to nudge healthy food choices from extended online menus
Indah Gynell

10:00 Process evaluation of a Mediterranean diet and exercise intervention among an older at-risk UK-based population
Stephanie T Jong

10:15 Developing a complex intervention to engage adolescents in eating better and moving more: EACH-B Programme
Wendy Lawrence

Online 10:30 Instagram priming: nudging beverage choices from vending machines
Enola Kay

Symposium Trust and equality in blood donation across different populations: an international perspective
Chair: Elisabeth Vesnaver

9:30 How public trust and healthcare quality shape blood donation behavior: Comparative evidence
Eva-Maria Merz

Online 9:45 Exploring trust, distrust and socio-political context on donation decisions in ethnic minority communities
Eamonn Ferguson

Online 10:00 FAIR: how the UK moved to a more individualised blood donation policy
Claire Reynolds

Online 10:15 Staff challenges to implementing new plasma donation criteria for men who have sex with men
Terrie Butler-Foster

10:30 Co-developing theory-informed interventions promoting plasma donation by newly eligible men who have sex with men
Elisabeth Vesnaver

10:45 Discussion
Ronan O'Carroll

Symposium Innovative approaches in informal care research: exploring new determinants, methods, and frameworks
Chair: Val Morrison

9:30 Introduction
Val Morrison

9:45 Personal and geographical determinants of willingness to care and caregiver outcomes
Eva Bei

10:00 The role of perceived responsiveness in a multinational group of caregivers: a moderated mediation model
Giulia Ferraris

10:15 The use of psychological network analysis in informal care: an empirical illustration
Pierre Gérain
Using Photovoice and Interpretative Phenomenological Analysis to explore caregiving motivations
Mikolaj Zarzycki

Discussion
Ronan O’Carroll

Mental health, social support and health-enhancing behaviours

Individual Differences in Spontaneous Self-Affirmation and Mental Health
Peter Harris
