

Subject: EHPS 2022 Conference – Indoor Activities Face Mask Recommendation

Dear EHPS Conference Delegates,

It gives us a great pleasure to welcome all of you at our Conference in Bratislava, Slovakia! We hope that during the five days of the conference we will have the opportunity to celebrate everyone's achievements, network, and enjoy our time together.

The EHPS Executive Committee, however, has a special request for all those delegates who will attend the conference in-person.

Since there will be many delegates who are vulnerable to Covid-19, we ask that all delegates protect each other by wearing face masks indoors at the conference venue (unless you are exempt). This would mean *wearing a face mask in the conference rooms and during indoors activities*. To protect yourself and others the best would be to use a respirator mask (FFP2 or KN95 or N95, or P2).

A face mask can protect you from getting infected by the coronavirus; protect those around you and especially those delegates vulnerable to Covid-19 and/or their families and prevent against the spreading of the virus.

Let's make our conference a covid-safe one!

Looking forward to seeing you at Bratislava,

The EHPS Executive Committee
